

## Dissonance Dance Theatre

# New Voices of Dance Application

Founded in the Summer of 2016 by Shawn Short, New Voices of Dance (NVD) is a new program that promotes the development of choreographers dedicated to contemporary ballet and modern choreography by providing opportunities to develop their talents.

NVD's goal is to increase the number of working choreographers, that are currently emerging - not aspiring - choreographers working towards full-time choreographic employment.

Choreographers receive travel fare to Washington, D.C. and receive an honorarium for their work. Choreographers also obtain a HD quality MP4 of their produced work for their professional reels. Choreographers currently set their work on Dissonance Dance Theatre (DDT). Choreographers are directed and guided by DDT's Founder/Principal Choreographer Shawn Short.
